Ink Additives

We are happy to announce that **MPCI** has the exclusive right to manufacture and market **Dyco-Tec's** Ink Additive Products, effective November 1, 2014.

Code	Product	Recommended Usage	Advantage
DV-2003	Odor Mask	3-7%	Promotes adhesion in plastic
DV-2005	Low VOC Ink Oil	3-7%	Environmental Friendly
DL-902	Water Pick Up Reducer	0.05-2%	Lower Duke water P/U to 30% Does not affect ink body, tack , & general performance
DW-801	Water Coupler	1% -1.5% with 5-15% water	Faster drying , sharper dots & better trapping results In addition to lower RMC, less misting & better water P/U
DN-201/205	Low VOC Anti-Skinning	0.2-1.5%	Reduce Hide & Skin in tote bins Does not retard dry properties of ink film, very good anti misting agent on printing rollers
D-1000	Anti- Piling & Ink Transfer Aid	3-10%	Can be used on press side Improve ink transfer in metallic inks
E-317	Varnish Additive for Black	10-25%	It has a high Body/Tack ratio Reduces misting & dots Good film former Less gloss dry back in black

If any additional information is desired, please contact us by Phone (888-439-5678), Fax (708-681-5679), or E-mail (modern@moderncolors.com).

We look forward to your sample requests and workings with you to custom develop any product you desire.
